SUMMARY

Software engineer with experience in C#, C++, TypeScript and Python, working on real-time applications, internal tools, UI systems and interactive prototypes. I have worked across gameplay, R&D and generative AI. I also worked on LLM based tools and content generation experiments. I'm also comfortable with debugging, profiling and optimization, as well as Unity, VFX, shaders and real-time rendering for desktop, mobile and VR.

SKILLS

- **Programming:** C# · C++ · TypeScript · Python · UI
- **Engineering:** Git · Debugging · Testing · Optimization
- **Systems & Tools:** Unity · Tooling · Automation · Real-time
- **AI & R&D:** LLMs · AI Agents · RAG · Prototyping

EXPERIENCE

June 2024 - July 2026

OZWE Games

Software Engineer

- **Software Development:** C# · TypeScript · UI/UX · Desktop / Mobile / VR
- **Tools & Workflows:** Unity Editor tooling · Artist-facing tools · Production automation
- **AI & R&D:** LLMs · AI agents · RAG · Image-generation pipelines · Python / Jupyter
- **Performance:** Profiling · Debugging · Gameplay and real-time VFX optimization

June 2023 - August 2023

OZWE Games

Software Engineer Intern

- **Implementation:** Gameplay features · Internal debugging tools · VR experiences
- **Performance Analysis:** Python · Jupyter Notebook · Seaborn · Performance traces
- **QA & Debugging:** Gameplay · VR testing · Real-time VFX

2020 - 2023

EPFL Digital Humanities
& Scala Center

Teaching Assistant

- Helped students solve exercises and answered questions on a Coursera forum.

EDUCATION

2021 - 2024

ETH Zurich

Master in Computer Science

Major in Visual Computing · Minor in Systems Software

2017 - 2021

EPFL

Bachelor in Computer Science

PORTFOLIO

Master's Thesis [LINK]

LLMs + MCTS for agent decision-making, with a natural-language interface and user study.

Fluid Simulation [LINK]

Built and optimized a real-time CPU particle fluid simulation. The user can interact with the fluid.

C++ Ray Tracer [LINK]

Built a ray tracer in C++. My rendered image was selected for the ETH Disney Competition.

Interactive CV Game [PLAY]

Built and deployed an interactive Unity WebGL portfolio featuring gameplay, UI and multimedia content.
